Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Siersch.

These claims stand rejected as discussed in the previous office action.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Buhler.

These claims stand rejected as discussed in the previous office action.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 2872

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Siersch.

This claim stands rejected as discussed in the previous office action.

Response to Arguments

6. Applicant's arguments filed 11/12/03 have been fully considered but they are not persuasive.

Applicant has amended the claims to recite that the device is "for dental treatment." However, this is a statement of intended use which fails to further limit the claims in a structural manner.

Applicant has also amended the claims to recite a "single" illumination system. However, as the claims are open-ended (they use the term "comprising"), the references still meet the claim requirements since the references each *include* a single illumination optical system.

Applicant has also argued that while fig. 3 of Siersch shows the illumination axis to be within a circle whose diameter

lies between the two observation optical axes, the fig. 3 device does not have a single illumination axis and is not used for dental treatment. However, the device of Siersch still meets these two limitations as noted in the preceding two paragraphs.

Applicant has also argued that Buhler fails to show the illumination axis to be within a circle whose diameter lies between the two observation optical axes. However, this is seen to be incorrect. Figures 1 and 2 of Buhler, cited in the rejection, clearly show an optical axis of the illumination path to be within said circle. Note the attached copy of Buhler figs. 1 and 2 which have been annotated by the examiner indicating this feature.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
